Thank you for purchasing one of our original Sandvox Designs bundle.

Below we have listed various sections of information to help you maximize the use of your Blueball Resume Design(s) as you use it with Sandvox 2 to produce your new web site. If you see something we can do to make your experience better when using our Resume designs with Sandvox 2 to create your web site, or have a suggestion, please let us know!

Contents

1 - Blueball Resume Designs Information - **IMPORTANT - PLEASE READ!

2 - Browsers supported by our designs

1. Blueball Resume Designs Information and Tips

How to install your Blueball Resume designs:

After you download your Blueball Resume designs bundle file you will need to double click on it to unzip the file. In the Blueball_Resume_vSV2_v2 folder you will find 12 individual Blueball Resume Sandvox 2 design files that end with the extension .svxDesign. **To install each Blueball Resume design you need to double click on each design file, and the design will be automatically installed into Sandvox 2. By default all third party designs are installed into Sandvox's Application Support folder. After you finish installing your designs, you MUST restart Sandvox 2 before your newly installed designs will appear in the designs preview window in the Sandvox 2 work window.**

Your Blueball Resume v2 designs bundle includes:

- 6 Blueball Resume v2 770px wide Sandvox designs.
- 7 Blueball Resume v2 970px wide Sandvox designs.
- 3 Blueball Resume v2 readme pdf files.

Adding Your Own Custom Banner Image Into The Resume Design

See the “[BlueballResume_BannerImgsV2.pdf readme file](#)” for detailed information on placing your own custom banner image into your Sandvox 2 site layout using **Blueball Resume**. Your custom banner image is placed within the business card background image graphic area in the top left corner area of the page to the left of the nav menu area and below the logo image.

Your custom banner image must be sized exactly as noted below for both the 770px width Resume design and the 970px width Resume Wide design, and saved as a .jpg or .png image file.

770px design width: 188px wide by 112px tall
970px design width: 188px wide by 112px tall

Logo Image

The logo image is placed in the top left corner area of the Resume design layout above the business card image graphic. **The logo image size is 186px wide by 50px tall. Your logo image file must be that exact size or it will not display correctly in the design layout.** Be sure it is in RGB or sRGB color mode in the correct resolution, and saved as a jpg or png file. We recommend using the Save For Web feature in your image editor with quality settings between 55% to 80% saving it to a .jpg file format if the background doesn't need to be transparent to keep the file size as small as possible.

Nav Menu Usage Tips - Important!

The nav menu allows up to 4 lines of individual menu page names. These lines of page links will wrap automatically to fill the spacing to the right of the business card graphic. If you have more page names than will fit on the 4 lines available in the nav menu area, look at using the 970px width Resume design or adding in a collection index pagelet or callout to display your additional site page links in.

The individual nav menu names for your pages on the main nav menu level will only display in a single line of text and will not wrap to 2 lines themselves. Because of this we strongly recommend keeping your main nav menu level page names as short as possible for the best display results in your Blueball Resume design nav menu layout.

Yes, there ARE multiple hierarchical sub menu levels included with the Blueball Resume designs starting in version 2 for Sandvox 2.

Color Hexcodes Used In The Blueball Resume Designs Color Schemes

Blue:	#008BD1	Orange:	#F15A29
Cobalt:	#054569	Red:	#E03330
Green:	#49A300	Teal:	#2DA2BE

Resume 770px Design Active Content Area and Max Image Widths

Content area width with sidebar:	480px wide
Content area width with sidebar hidden:	697px wide
Maximum content area image width allowed with sidebar:	480px wide
Maximum content area image width allowed with sidebar hidden:	697px wide

Resume Wide 970px Design Active Content Area and Max Image Widths

Content area width with sidebar:	680px wide
Content area width with sidebar hidden:	897px wide
Maximum content area image width allowed with sidebar:	680px wide
Maximum content area image width allowed with sidebar hidden:	897px wide

Title and Tagline Text Length

Title Text - You must keep the Title text limited to one line of copy with any of the Blueball Resume designs. Using 2 lines will result in display errors with this design.

Tagline Text - You must keep the Title Paragraph text limited to one line of copy with any of the Blueball Resume designs. Using 2 lines will result in display errors with this design. Hiding (not displaying) the logo will move the Title and Title Paragraph lines of text towards the left edge of the theme layout.

We've Arranged Our main.css File Code Into Groups For Easier Modification By Advanced Sandvox Users

If you open the main.css file you will see that the css code in our file is arranged in groups by areas of the design layout. We designed it this way to make it easier for advanced Sandvox users who want to "tinker under the hood" and customize the css some.

BE SURE TO MAKE A BACKUP COPY OF YOUR DESIGN BEFORE ATTEMPTING ANY MODIFICATIONS OF THE CSS CODE!

***NOTE!!! We do not recommend modifying the css code in this design unless you are well versed and familiar with css styling and coding.** Modifying the css code could break the display functionality of the design in your Sandvox site. **Any modifications are at the sole risk of the user and Blueball Design does not guarantee the performance of any Blueball Sandvox Design which has been altered or modified and we cannot be held liable if problems arise from your modifications.**

We Offer Great Support Before and After Your Design Purchase

Blueball Design has become known for our great customer support with our Rapidweaver Theme users over the past 9+ years and offer the same outstanding support to all our Sandvox Design users. If you have a question, please submit it to us using our contact form page or email us at themesupport@blueballdesign.com. Our Technical Support policy is listed below.

Technical Support

Technical support will be limited to questions and problems specifically associated with unaltered designs in normal conditions. We do not have the resources to offer free Sandvox 2 technical support or to provide training on how to use Sandvox 2.

We also cannot provide support for modified themes or graphics. We will be glad to assist you with modified design questions as time permits, but recommend you post questions to Karelia Software's forum.

You are responsible for adding or editing your web site's content. A complete and very helpful on-line Sandvox user manual with videos and tutorials can be found at: [http:// docs.karelia.com](http://docs.karelia.com).

We do offer support relating to our design products and encourage you to report any bugs or problems you have with one of them. We also welcome any questions you may have about one of our Sandvox design products.

We Offer Sandvox Design Modification Services

Blueball Design offers Sandvox Design modification services starting from \$40 and up. If you are wanting to change your color scheme, add in a new image, adjust the sizing of certain items, change the font styles, etc., please email us what you are wanting done and we'll be happy to help you out with your Sandvox design mod depending on our schedule.

*PLEASE NOTE: We do not create “one off” custom Sandvox designs at this time and limit our design modification services to our Blueball Sandvox designs and the Sandvox program’s default included designs.

A Final Word On Our Sandvox Designs

We believe that web design should be clean, simple, unique, professional and straightforward in functionality and design. Our Sandvox designs are developed following this mission statement. By keeping image use in the layout to a minimum our Sandvox Designs will produce sites that publish quicker with pages that load faster for your site viewers, and will offer more stable display functionality in all the major browsers.

2. Browsers Supported By Our Blueball Resume Designs.

The Blueball Resume Designs have been tested on, and will display correctly on the following browsers: Safari, Firefox, Chrome, Opera, and Internet Explorer 8, 9, and 10.

Help Us Improve Our Sandvox Designs For Sandvox Users! Comments, Feedback, and Suggestions Are Welcome!

What do you think of our Sandvox Designs? What would you like to see? We need you to let us know what we can do to make your experience using Sandvox with our Sandvox Designs better for you. Use the contact form on our site or email us at themesupport@blueballdesign.com.

Send Us Your Site URL When You Have Your Site Up and Running!

We like to see what Sandvox users have done with our designs. Please send your site url to us so we can check it out.

Good Luck With Your Sandvox Web Site!

Best,
Charlie
